Our Y offers Camp Redwood, our rental camp during the summer at Sequoia Lake as a space for your organization to operate your youth centered activities or mission outcomes. Work with us on creating a schedule and offering your group a life lasting memory or a yearly trip that your organization creates coming to our Y every year.

We offer 14 cabins sleeping 8 persons per cabin and 2 bathroom houses created for private use of each camper in a safe environment. Additionally, groups may come with leadership staff who do not stay with their own group in a cabin. We offer 3 additional cabins for leadership staff not giving direct supervision over the campers, but the entire camp and needing a little space to recoup.

"The counselors are amazing, the camp experiences are creative, fun, and adventurous! From hiking trails with beautiful views to zip lining to rock wall climbing to having a high ropes course! I am totally in love with the experience and I enjoyed my time there! The people are amazing, the camps are great, and the vibe of camp is an amazing, positive experience!"
