Bringing a company retreat to YMCA Camp Sequoia Lake offers a unique blend of adventure and tranquility, surrounded by the awe-inspiring beauty of the Sequoia National Forest. The private lake creates an intimate setting, perfect for team-building activities, kayaking, or simply unwinding by the water.

Being on the cusp of two national parks, this environment is ideal for creative brainstorming sessions or reflective moments. The camp's natural environment encourages connection—both with nature and with colleagues—away from the distractions of everyday life. Whether hiking through the forest trails or gathering around a campfire, the retreat fosters camaraderie and renewal. Overall, the serene landscape of YMCA Camp Sequoia Lake provides an unforgettable backdrop for fostering teamwork, relaxation, and personal growth.

*"West Hills Community College District, College Assistance Migrant Program participated in its Student Leadership Retreat at Golden State YMCA. This Leadership retreat provided the opportunity for students to gain leadership skills and create support groups. Lemoore College, Coalinga College, and Firebaugh Center students participated in leadership activities such as Science STEM, rock wall, hiking, and archery. I highly recommend the Golden State YMCA. Their team is extremely welcoming, and they work with you to meet the needs of your group. Thank you, Golden State YMCA team, for providing us with an excellent experience!"*
